Tests must reflect standard results prior to removal of these warning signs. Due to environmental conditions beyond our control (i.e. heavy rains) it is expected that the substandard condition is temporary only. Treat it as a "boil water" advisory.										
<b>Notes:</b>										
	x		coliform or e-coli = greater than zero							
	✓		coliform or e-coli = zero							
	O/G		overgrown- unable to be measured
