Re: Norway Point Improvement proposal

I completely object in full to the proposal.

This is a public day-use property, and should remain that way.
This property should not be made private in any part, to any one select group.

The privilege of this facility has been abused for years, (ie: overnight long-term use) and that issue has to be addressed.

I don't feel that the Township of Lake of Bays is looking out for the best interest of everyone, and should decline the proposal.

Yours truly,

A handwritten signature in cursive script, appearing to read "Carol Armstrong".
