MEA BOOK PRESENTATION – "SHARING WITH PRIDE"

2009 marks the 50th Anniversary of the Municipal Engineers Association (MEA) Annual Workshop.

With origins back to 1946, the MEA is a professional association of full-time municipal staff licensed to practice engineering in Ontario, working together to develop and share both experiences and best practices in the delivery of essential services to citizens.

The approximately 600 members are employed in over 135 municipalities across the Province representing those communities which are a large part of the population.

To celebrate this 50th anniversary occasion, the MEA has published a book (includes CD) of its history, entitled "Sharing With Pride". The book is being made available free to all Municipalities in the Province as an effort to bring greater awareness of the role of municipal engineering in providing sustainable infrastructure.

I would respectfully ask that this matter be placed on a Council Agenda as a public announcement and that the book eventually reside in a municipal library for public consumption.

On behalf of the Board of Directors, I thank Council for accepting this memento. For further information about the MEA, the organization can be contacted at info@municipalengineers.on.ca.

Yours truly,

G. P. Carroll, P. Eng.
President,
Municipal Engineers Association
