

Letter to the Industry

Essential Services COVID-19 - 2020-05-14

To: All Individuals participating in the Construction Industry,

Thursday May 14th, 2020 the Province of Ontario lifted the restriction on workplace limits on construction sites.

As of 12:01 a.m. May 19th, Municipalities will be able to grant all permit applications in compliance with the requirements of the Ontario Building Code and applicable law. Municipal staff will be working diligently to release permits for submitted applications to applicants over the next week.

In addition, all required Site Inspections will be available for all construction types, upon request to your area municipality. Municipalities require that contractors follow the Ontario Workplace Prevention recommendation for *construction site health and safety during Covid-19*. We encourage all applicants to visit their respective Municipalities webpage ([link below](#)) to get more information on how applications are being accepted and how to arrange Site Inspections during this time.

We want to thank everyone for your understanding and responsiveness in complying with the previous Provincial Restrictions during this Pandemic and look forward to work with all of you in the near future.

Should you have any questions please contact us for more information.
